Morph

Morph makes smooth animations and object movements in your presentation. You use two similar

slides to perform the animation, but it looks to your audience like the action happens on one slide.

Play

Morph is a subscription-only feature. If you have an Office 365 subscription, you can try it yourself

with the steps on the next slide.

Setting up

Try it yourself with these two simple “planets”:

Duplicate this slide: Right-click the slide thumbnail and select

In the second of these two identical slides, change the shapes on the right in some

way (move,
resize, change color), then go to
Return to the first of the two slides and press

Working together in real time

When you share your presentation with others, you'll see them working with you at the same time.

Select

When other people are in the presentation, a marker shows who is on which slide...
...and the part of the slide they're editing.
